ATTEST:													

Opened September 30, 2000, Oak Quarry Golf Club in Jurupa Valley (Riverside County), CA, is widely considered to be one of the top public golf facilities in the nation and perennially ranks as one of the best golf courses in California. Designed by Schmidt Curley Designs, in collaboration with retired PGA Tour golfer, Dr. Gil Morgan, Oak Quarry is brilliantly routed through the exhilarating terrain of the historic Jensen Quarry. Over the years, Oak Quarry has received numerous awards, including:

- Press Enterprise - Best Course - Inland Southern California
- Fairway Greens - Top 18 Best Courses on the West Coast
- Golf Destinations - Best Course We Have Played Award
- Hole #14 - Best Par 3 in Southern California
- Hole #4 - Prettiest Par 4 in Southern California
- John Deere - Top 18 Most Beautifully Brutal Holes, 2009
- National Golf Course of the Year, 2013
- California Golf Course of the Year, 2011, 2013
- Golf Digest - "America's Best 18 Holes" (Hole #14), August 2020
- Golfweek - Best Courses you Can Play - Ranked #25, August 2020

One notable fact about the pre-opening days of Oak Quarry is that Brian Curley, the principal architect, thought that the opening hole should be what is currently the 17th hole. To honor Curley's contribution to Oak Quarry, this scorecard reflects his original idea to start your round where he intended. While this change is temporary, we hope you'll agree with us that it's fun to spice things up a little after twenty years.

Oak Quarry would not be what it is without the countless contributions of our guests and co-workers. For this, we humbly say, "Thank you."
